Spring Clean-Up Day,
Monday, May 2

Winter's damp, cold grip seems slow in letting go this year. Nevertheless, early signs of welcome spring are evident; daffodils are blooming on some protected hill sides; lawns are beginning to turn from brown to green; and some of our indomitable citizens have made giant leaps on spring cleaning chores. Neighbors at Kimball Park, for example, joined together of their own volition to rake and clean the park. Many thanks for this and other unselfish deeds.

Bethel's annual Spring Clean-Up Day, postponed from this past Monday, is re-scheduled for Monday, May 2. Highway crews will begin picking up waste materials at 8 a. m. All materials must be placed at the side of the road and materials should be picked in plastic bags or other disposable containers. Brush should be tied in

What weather! The sun sure does like to shine and make it nice Spring weather. Of course, we did get two days of sun, but could do with a little more.

Started the week off by going to Lewiston Monday to visit my daughter Wynona Woolf. My niece, Darnita Yates went along to drive for me as I can't drive long distances. Her daughter, Eva kept us both company. We had a real nice visit with her, as well as a good lunch.

After lunch, we went shopping for a short while. I had gotten an electric typewriter in early March and the spacer kept sticking. I wanted to get it fixed or exchanged before the warranty ran out on it. Wynona is better at city driving than us kids so she drove us around Lewiston, where we had to go. Got home expecting we might go to Grange, but no one seemed up to it so stayed home and did other things.

As Tuesday wasn't the best day either, Russell stayed inside and did paper work that needed doing.

Wednesday was a rather windy and cold day, but after lunch, Russell and I started for Norway, where I had to get some medication. The signal lights stopped working on the way down, and I told Russell we would have to get it looked at. We turned into the yard of a service station in South Paris, and the car stalled.

It wouldn't start again, but we were glad we were there, instead of out in the country where we would have had to walk a long way to get help. I had bought the battery at another garage, and they seemed to think there was a dead cell in it. Nothing to do but call the other garage. They sent a fellow to start the car and get it to their garage and fixed it for me. The alternator didn't stay charged enough to keep the car running. We had expected to go right down and back without stopping long, but we got fooled, that's for sure.

We were to go to West Paris Grange, Thursday night, so Russell and I did a little cooking in the forenoon. Everyone takes something when there is a pot luck supper, and that's the best kind. It was to be a four-point meeting, so we were to take some of the offices for the evening. One of the Granges didn't show up at all, so members from all the Granges present filled offices. We had a nice supper and meeting. Always meet some old friend at these meetings, that I haven't seen for sometime, so I enjoy that very much.

What a beautiful day, Friday turned out to be! Russell worked outside, until it was time to head for Fryeburg for your truly to see the doctor. We went a little early and had lunch at the restaurant in Fryeburg.

In the evening Peggy was in to West Bethel to help celebrate her great grandson's first birthday. The party was at the home of Cameron and Pamela Taylor, the parents of little Stephen. It doesn't seem as though he could be a year old but time has a way of passing us by.

Saturday was another grand sunny day. Peggy, Russell and I went to Norway to attend our cousin's husband, Edward Oman's funeral. In the evening, we had our regular meeting at Bear River Grange, preceded by a pot luck supper. This was the fourth meeting in a row, that we had eleven members present. Hope it keeps up, and that more will come. The more people, the more fun, as I have

Special Town Meetings will be held in the 14 towns comprising the Northern Oxford County Vocational Area Thursday, May 5, to vote on N.O.V.A.'s proposal to purchase and renovate the Rumford Center School. Polls will be open at Newry from 1 p. m. to 8 p. m. at the Bear River Grange Hall. Eligible persons, not registered to vote, may do so at the polls on election day. Absentee ballots may be obtained from June Swan, Town Clerk.

Mr. and Mrs. Verne Glover, Hollis Center, spent the week end at their camp in Newry.

Mrs. Susan Bowie, Jennifer and Christopher, Augusta, were week end guests of Mr. and Mrs. Owen Wright.

The subject of Pastor Hanscom's sermon Sunday was "Confession" from Isaiah Chapter 62 and Romans Chapter 5.

The Windy Valleys Snowmobile Club held their annual clean up of the highways along Sunday River and Bear River Saturday, along with a bottle and newspaper drive. Refreshments were enjoyed at the home of George and Barbara Merrill.

Mrs. Jennie Bennett is a surgical patient at the Central Maine Medical Center, Lewiston.

Mr. and Mrs. Philip Schwind, Rumford, were dinner guests of Mrs. Sylvia Harrington, Sunday.

Mr. and Mrs. Randy Swan and Jason, Bethel, Vt., were week end guests of Mr. and Mrs. Lee Swan, Michelle, Krystal and Jennifer Straight, who had been visiting their grandparents, returned to Vermont with them Sunday.

The Ladies Circle will meet at the Club Room May 2. A pot luck supper will be served for members.

The annual business meeting of the Union Religious Society of the Newry Community Church was held at the church Monday evening. This meeting will be continued at the church Tuesday evening, May 3, at 7 p. m.

Our next regular meeting will be May 14, so keep it in mind. There will be an open Pomona meeting at the Bear River Grange Hall on April 30, with all welcome to come and see what takes place.

Good weather couldn't last. Sunday was a cloudy and rainy day. We all seemed to be sleepy, after being out the night before, and turning the clock ahead too.

Didn't expect any callers, but Lorene and Preston Cobb and two daughters came for a while, also Darnita Yates and daughter Eva called for a visit.

Noticed that our neighbors across the road got home. Hope they had a nice vacation, and found better weather than we have had here.

I wish people would be so kind as to keep their dogs home. We don't let ours roam and wish others wouldn't either. After all, there is a law that dogs are supposed to be hitched, if not kept in control otherwise. I love dogs and all animals, but they belong at home, not in the other fellow's yard.

Let's hope the man upstairs pulls the curtains and gives us some more sunshine soon. It is getting time to start working the ground for a garden, and can't do it in the rain.

PUBLIC NOTICE
The Municipal Officers of the Town of Bethel will meet at 7:00 p. m. Monday, May 2, 1983, in the meeting room of the Town Office to hear comments and to consider a renewal application for a Special Amusement Permit for the Bethel Commodore Corporation d/b/a The Bethel Inn and Country Club, located on Broad Street in Bethel, Maine.

NOTES FROM Evans Notch

White Mountain National Forest

Three individuals who volunteered their time to the U. S. Forest Service this past winter, have recently ended their tours on the Evans Notch Ranger District of the White Mountain National Forest.

In December, John Rovetto of Dumont, N. J., and Richard Reimers of Philadelphia, Pa., began work on projects involving the maintenance, mapping, and inventorying of wildlife openings, and the collection of resource data on forested lands within the District.

John and Rich completed work on 66 acres that will provide for the improvement of wildlife habitat. Collection of resource information on over 2,250 acres of forest land will help improve the quality of District land management.

Deborah McArdle of Cape Elizabeth, began working as a volunteer in late January, and was in-

voluted with the development of brochures explaining the many outdoor recreation opportunities the Evans Notch Ranger District provides. Debbie was also involved in timber management activities including tallying for the timber marking crew, as well as assisting with sale preparation work such as layout and mapping of timber sales.

These individuals combined to work over 1,200 hours between Dec. 6, 1982 and April 15, 1983. Their efforts have helped improve the quality of the management of the Evans Notch District and are a direct contribution to American citizens, owners of the National Forest.

Don't look now, but it is raining hard and has been since early this Sunday afternoon. As one lady says "we do need the rain". I think we need a bit of sun for a change. Friday and Saturday were beautiful days, but too good to last.

Community Club meeting will be held Wednesday, May 4, at 7 p. m. at the hall. It's good to have heat in the hall if we need it. I read in the paper today the Legislature are talking about taxing funerals. Now isn't that something? That is so high now I marvel that anyone can pay the bill now, without a tax. You even will be taxed then after you are dead.

Safety Tip of the Week

With all the local flooding, be especially careful of what appears to be a small layer of water over the road. It may be much deeper than it appears. Also the current in the small streams is strong. A car stalling in one of the low lying sections may be very difficult to start up again. Whatever you do—don't leave the car and try to swim in the very cold, swift current.

WOODSTOCK HISTORICAL SOCIETY OBTAINS CIVIL WAR DISCHARGE

Ruby Emery of the Research Committee has presented the Woodstock Historical Society with the Civil War discharge of Corporal William Henry Pearson, a member of the 10th and 28th Maine Regiment Co. B, under Alfred S. Turner. He lived on Hamlin's Gore in what is presently Frank Bean's house.

This latest acquisition is a key addition to the Society's now extensive collection of military memorabilia. As always, Mrs. Emery's gifts are timely and greatly appreciated.

Curator Larry Billings also has a major article in the Bates Alumni Magazine on Historical Societies in Western Maine.

Assistant Curator Louisa Noyes will be doing work on the library and museum this summer when she is available.

Letters to the Editor

To the Editor:

I have been reading the previous articles on the N.O.V.A. programs with interest; however, I feel I must enlighten the readers on some raw facts.

The vocational regions were not created to supplement post-secondary vocational technical institutes (SMVIT, CMVIT, etc.) but to equalize the educational opportunities already in existence for other Maine youth. Prior to the development of the regions in 1973, only 14 high schools in different parts of the state offered secondary vocational training to juniors and seniors. These were all located in the heavily populated areas. The regions were created to provide the same opportunities for rural area youth. The regions are not "school systems," they are extensions of each school system within their geographic bounds. The regional plan was adopted by the legislature because it proved to be more cost effective. The plan that S.A.D. 44 developed and offer its own programs confirmed that.

Last week's article leads one to believe that, out of the blue, N.O.V.A. suddenly increased the cost of the new proposed facility from under one million to over 1.2 million dollars. The exact figure is \$1,575,000, which was established last fall. Of that figure, about 1% (\$17,493.88) would be borne directly by S.A.D. 44. The other school districts in N.O.V.A. would contribute an additional 4%. The remaining 95% will be paid by the state from funds which will be raised through taxes, regardless of whether the Rumford Center project is built or not. The author of the article left out the co-op program enrollment when figuring N.O.V.A.'s per pupil cost, but failed to deduct the cost of the program, thus increasing per pupil

In addition to aesthetics, safety is also an important element in spring clean-up efforts. Melted snow banks have, like the receding glacier, deposited a measurable thickness of sand along the roadsides frequented by pedestrians and bicyclists with the result that footing and traction is dangerous. This week, even though rain has caused some obstacles, shoveling out of catchbasins and sweeping efforts are systematically underway. At an early opportunity, the State Highway Department will be sweeping (and remarking) the Route 26 bicycle paths between the village and Telstar.

Selectmen's Meetings - This Week and Next

The Board of Selectmen met in special session Monday, April 25, at the Town Office meeting room. Several matters directed at clarifying matters regarding proposed Water District legislation were discussed before proceeding with initial discussions on Bethel Airport development. Readers will recall that a majority at Town Meeting voted to direct the Selectmen to proceed with airport development in accordance with the "Airport Master Plan" (1982) and exercise an option to acquire property adjacent to the airport at no cost to the Town. Recognizing that the land option expires irrevocably in July, 1983, the Board voted to retain the services of a surveyor to mark off the proposed airport layout as specified in both the property deed and the "Master Plan". Surveying is expected to

commence within the next few days.

Other airport development matters will be discussed at the next meeting of the Selectmen, Monday evening, May 2, at the Town Office meeting room. Discussions will include the establishment of an Airport Development Advisory Committee; tasks and milestones to be developed to accomplish the development; proposals for a charter for the Committee that will include development of a strategy for development that will accomplish the goals for the least cost; and, the representation on the Committee. Other agenda items include discussions on police policy, a work-for-welfare program, a major projects list for 1983, and a public hearing on a Bethel Inn application for liquor license renewal. Interested members of the public are invited to attend.

The next regular meeting of the S.A.D. 44 Board is scheduled for Monday evening, May 9, 7:30, at the Andover Elementary School.

effective at the end of the current school year. Miss Haverinen, who plans to take up residence in Massachusetts, first started teaching in S.A.D. 44 at the Locke Mills Elementary School in the fall of 1971.

Board members not present Monday evening: Desda Fogg, Andover; John Haines, Greenwood.

The next regular meeting of the S.A.D. 44 Board is scheduled for Monday evening, May 9, 7:30, at the Andover Elementary School.

Pauline Smith, Corres.
Jack and Beverly Bassett had dinner with Beverly's folks, the Leroy Smiths, Sunday.

Callers at the Smiths this week were Jane Hinderson, Beryl Merrill, Mr. and Mrs. Roger Cobb of Lovell, John and Carroll Palmer of North Lovell.

Kenneth Merrill and family were here over the week end, burning and clearing up brush.

Jane, Stephen, and Mark Hinderson of South Portland were here at their camp for the week end.

Linda Allen and Rose M. Smith helped Iva cleaning this week.

Both Hazel Allen and Dana Gregson are better.

Bob Cope and friend from Connecticut were here at Bob's camp for a few days.

Harlan Rowe, Jim, called on the Smiths.

I attended church after missing four Sundays. A good turn out. Special music also. Nice to be missed and helped by so many.

Both Michael and Greg Fox spent a few days with their grandmothers.

Greenwood City

Mrs. Colista Morgan, Corres.

After a week of weeping skies and cold winds, I could hardly believe what Friday morning brought. Gradually streamers of rose and mauve in the east changed to gold, then the sun burst over the tree etched hills. The pond was transformed into a brilliant crystalline boulevard with ducks rocking on the gentle waves. I breathed the mountain air and my feet felt winged. I gave them a chance to "fly" later in the day.

I heard the first robin song of spring, singing as only a robin can sing, a fluid, haunting melody of gurgling notes, sounding like the flowing of water.

The coming of the robin and wild flowers are what makes Maine winter worth surviving. I haven't determined yet the absolute first flower near me but ruling out the never-fail skunk cabbage. I think it's the hepatica. I saw them this week. They are like human contemporaries, where the frail and delicate-looking withstand storm and stress far better than their robust-appearing brethren. We always welcome them with joy, not alone for their delicate beauty, but because they are first of all the flowers upon the scene of action. The flowers vary in color from lovely blue to pink or white. The long parade of flowers gets under way in April.

The pond provides a whole environment to the living of many creatures; the turtles, the frogs, and the ducks. I heard the frogs for the first time as I walked near the pond. Although they at times give voice sounds like the low pitched twang of a banjo string, today they were making a sound like two rocks being grated together. Soon in the dusk of our spring nights there will be a variation from the frail lonely twilight sound of the peepers to those sounds of the leopard frog, the green frog and the deep "Ter-rump" of the bullfrog. No matter which I like to hear them.

Up the hill beyond the house I could see where the sun had caught the green. Some coniferous trees stood darkly green beside me, while others, deciduous and still naked brought touches of spring green to the country side. The landscape is a vast system constantly in action.

A single scarf of breeze came rippling over the hill. It was more like a great river, a wave, which drowned the hill.

The swallows are back and I watched them dart and dive, as I

PUBLIC NOTICE
The Municipal Facilities Committee and the Bethel Board of Selectmen are seeking proposals (not bids) from local artisans to accomplish (1) carpentry repairs and (2) old paint removal and repainting of the Main Street facade of the Cole Block. Carpentry repairs involve mainly resetting windows for proper operation and full closure and repairs to some sills and cornices. Exterior preservation involves removal of old paint, caulking and new paint application. Proposals should describe the methods the artisan would use and his/her capability to accomplish the work (since vertical height exceeds 50 feet) during the spring and/or summer. Price estimates helpful but not required. Proposals will be helpful in formulating bid specifications prior to formal commitment. Please address: Proposals, c/o Town Manager, Town Office, Box 108, Bethel, Maine 04217, by May 6, 1983. 16-18

Gilead

Louise Loring, Corres.

"Raindrops keep falling on my head"—goes the popular song—and "Let a Smile be Your Umbrella" crooned one old timer in the 20's (am I correct in my assumption that it was Rudy Vallee?)—and how about the clever adage that is the trademark of Morton Salt—two little kiddies huddling under a huge umbrella with the slogan "When It Rains It Pours". And it sure does and has for the last eight week ends. All of these are appropos of weather today. As usual, on Sunday, when I sit down to compose my introduction to this column, there isn't much to exclaim over—except the torments of continuing rainfall. Today however, I have changed my seating arrangements and have moved out to our enclosed porch. Here one does not feel quite so isolated from all humanity—and the raindrops that are trying to fall on my head, are tapping their crescendos upon the roof with a consistent "tap-tap-tap a rat-a-tat" broken only by the hissing of the tires of an occasional passing motorist upon the wet pavement. All the homes in the village are taking on their most drab shade of colors—not a creature or a beast is stirring—and smoke curls lazily up from most of the chimneys, indicating that everyone has secluded themselves within—having given up battling the elements. Even the little village store is closed up tight, and without its cheerful twinkling lights, shining out through the red checkered cafe curtains, the security blanket of the entire village is all but wiped out! Half drowned gro-brooks come to the feeders in search for perhaps a misplaced seed or two. The grackles and starlings fight over the remains of the limp mushy soggy bread crumbs that were not all devoured yesterday. I had rashly purchased a dietary fruit dessert—and not caring for it placed it in the feeder by the den window. One starling had himself a delicious Sunday repast, took his foot and tipped it up in a horizontal position, so as to retrieve every tender morsel. This was a deliberate action, not an impromptu one. Quite an enterprising old bird, after all! Perhaps we can find a hidden moral in this story, if we search hard enough.

Thought for the week: Happy people do not spend their time talking about happiness—they are

either writing a poem—growing roses—putting in their basements—fighting for a great cause or hunting for dry land in the Gobi Desert. Keep the faith everyone—see you next week.

The Gilead Women's Club met April 19 at Belanger's Store with seven members present. Money making schemes were discussed as the treasury is getting low. Any fresh ideas are welcome. Lyn Chapman provided the snacks which consisted of a tasty dip, fresh vegetables and crackers. May meeting will be election of officers, and dues collection, meeting on the 17th at Belanger's Store. New members are most welcome. Remember the Club benefits (all) Gilead children.

Mr. and Mrs. Joe Gaudreau have returned from a visit to North Carolina where they saw their new little grandchild for the first time.

Mr. and Mrs. Leo Legendre celebrated their 20th anniversary this past week end and entertained Mr. and Mrs. Lawrence Perry of Berlin, N. H., and Jean Coriveau of Turner, recently.

Mr. and Mrs. Denis Coriveau entertained at a birthday supper Saturday evening. Besides family members, Jon and Vicki Albert of Gorham, N. H., were also in attendance.

Mr. and Mrs. Leo Belanger entertained Mr. and Mrs. Leo Boutin of Berlin, N. H., over the week end.

Kathy and Denis Coriveau, II, visited their uncle, Florian Coriveau, at the Andrews nursing home this past week end.

Mary Tyler and daughter Kathy, returned from Greenfield, Mass., this week end, after Kathy was fitted to a new brace at the Shriners Hospital there.

Kristie Angewine was the house guest of Belissa Coriveau for a few days last week.

Congratulations are in order for Beverly Coriveau who was awarded \$10 worth of gasoline in Gorham, N. H., last week end.

Jimmy Coriveau has been helping his father, Evon Coriveau, build on an addition to his garage.

The Gagnons of Sanford visited their cottage on Wild River this past week end and found that it had been broken into. A substantial amount of their possessions were stolen. It is reported that the thieves left behind some good identifying evidence which hopefully will lead to their arrest.

Cy Cole with the help of the Duponts and their splitter, split his pile of woods in 12 hours.

April 25 and a rainy, miserable day. The weather man was right for last week as we had about 1 1/2 days of good weather. From hearing about the weather of other places of our country still think Maine is a nice place to live. They say "April showers bring May flowers," and maybe still true but as yet none. In places the grass is turning green and some crocuses are blossoming. The river is up today after the rain Sunday. The lawns are getting mowed slowly but surely between the rain and how nice they look after they begin to green.

SHOULD N.O.V.A. EXPAND?

On Thursday, Nov. 5, a special referendum will be held in area towns, asking voter approval to spend 1 1/2 million dollars for new facilities for the Northern Oxford Vocational Area (N.O.V.A.). A critical analysis of this proposal yields the following information:

— N.O.V.A. was established by the Legislature, without voter approval.

— It is a separate school district supported by local taxes.

— N.O.V.A. costs per pupil are obscured by counting pupils it does not provide vocational training—and by counting its actual vocational students twice.

— Per pupil costs for vocational training at N.O.V.A. are over \$5,000 per year in addition to the local district cost of approximately \$1,800 per year.

— Two local citizens have resigned from the N.O.V.A. Board of Directors after repeated efforts to make N.O.V.A. cost accounting comparable to other school districts and to have less expensive operating methods explored.

— Local taxes will, in the final analysis, bear the whole 1 1/2 million cost—every dollar of the state education budget spent for vocational regions is a dollar not available to contribute to local school district costs and is consequently a dollar that local taxpayers must supply.

— N.O.V.A. plans to increase its vocational programs 100%—from four to eight courses.

— Local taxpayers will then be assessed for the annual operating costs of this expanded program—costs which average three times as high per student as those of home school district.

— The annual cost of N.O.V.A. just to pay for the administrator and his secretarial and office expenses has averaged \$50,000 per year or approximately \$1,000 per vocational student per year.

Many Directors of S.A.D. 44 have expressed the view that such costs are excessive and that a more realistic approach should be urged upon the State Board of Education. Respected educators have made proposals which advocate that appropriate and sensibly planned vocational preparation be integrated into the curriculum of existing high schools. The savings in administration, transportation, buildings and improved efficiency might well bring this educationally desirable goal to all of our students and preserve the continuity of high school life.

Area voters will have an opportunity to express themselves to N.O.V.A. and to Augusta on May 5.

Mrs. Randy Chretien of Brewer spent a few days last week at the home of Mr. and Mrs. Don Chretien. Jeremy and Jeffrey spent the week with their grandparents.

THIS WEEK AT THE**MOSES MASON HOUSE**

All members and friends of the Bethel Historical Society are reminded that the monthly meeting will be held Thursday evening, May 5, at 7:30, in the meeting room of the Dr. Moses Mason House. Featured speaker will be Margaret Joy Tibbets, Treasurer and chairman of the Society Board of Trustees who will make a presentation on Reverend Daniel Gould at Bethel. This will be a joint meeting with the Greater Rumford Historical Society. On May 18 the Greater Rumford Historical Society will host the Bethel Historical Society at the Rumford Center Meeting House behind which are the graves of Rev. Gould and his wife. The featured topic here will be "Reverend Daniel Gould at Rumford." Reverend Gould came to Bethel in 1789 and was a controversial Congregational minister for several years until he moved to Rumford where he lived out his days. Gould left \$832 in 1842 if the academy at Bethel would bear his name. The offer was accepted and the rest is history. Anyone interested in attending the meeting is cordially invited to do so.

Society Director Stanley R. Howe attended the quarterly meeting of the Maine League of Historical Societies and Museums Trustees on Friday in Augusta at the State Archives. Among the plans discussed was for the annual meeting of the League to be held this year at Bethel on Sept. 10 with the Bethel Historical Society as the official host. Following the meeting Director Howe called on Margaret Herlick Oakes who noted from her reading of the "Citizen" that the Bethel Inn was celebrating its 70th anniversary. Mrs. Oakes mentioned that she was probably the only one still alive who attended the dedication of the building in 1913. She also told Director Howe that "Paradise" got its name from Rev. Thomas Starr King who wrote extensively about the White Mountains. He once visited Bethel and was taken to the top of the hill and exclaimed, "This is Paradise." On Saturday Director Howe represented the Society at the Spring Conference of Maine Citizens for Historic Preservation at Bowdoin College which focused on rural preservation.

New member this week is Michael Rodak of Hackensack, N. J., great grandson of the late Harold and Bessie K. Stanley of Bethel.

WHAT NOVA STUDENTS SAY**ABOUT PROPOSED CHANGES**

Vocational Education is meeting the specific needs of some of our area youth. The Administration at Telstar High School is proposing some curriculum changes that would allow more students access to the NOVA vocational programs.

In discussing the topic of vocational education with four Telstar students that are currently taking one of NOVA's four trade programs, they would like to clarify some of the doubts that have been expressed about vocational education over the past few years.

When discussing the pros and cons concerning the NOVA programs, the students made the following comments.

"Traveling to the Rumford area on a daily basis to take the vocational programs is not a totally enjoyable experience. However, it is not that much of a hassle to stop us from taking the program."

"At first it was uncomfortable for us to go to another school to take a course, however it didn't take long to meet and make new friends and get into a daily routine. It's like moving to another school."

The comment has been made that students take vocational to get a "free ride" towards graduation. "In no way is taking a NOVA course getting a free ride. We have to double up on subjects which requires us to schedule six out of seven periods when we are at Telstar High School. No student would call that taking a free ride."

"Some students may think that if you take a NOVA course you will miss out on a lot of the social activities at Telstar. In taking NOVA we do not feel that we have missed out on any of the social activities at Telstar High School, because we are at the school in the morning and arrive back at Telstar before the end of the day. We also feel that we have an opportunity to participate in sports, which some of us plan to do."

The vocational programs have brought more meaning to our education and in no way could Telstar offer the same level of training which we are getting through NOVA. In our Industrial Arts program we received a good introductory exposure to our area of training in NOVA that leads to the development of saleable skills.

We are looking forward to graduation and we do not feel that the 20 accumulated credits that we

HEALTH CENTER URGES**REPLIES TO PATIENT SURVEY**

Once again the Bethel Area Health Center would like to remind those who have received a patient survey to fill them out and return them by May 2.

The purpose of the survey is primarily to obtain positive and negative comments along with constructive criticism about the health center and to gain input about the health care needs of the community. In order to address the needs, a patient care committee has been formed. The members of the committee are Debbie Adams, Elissa Thibodeau, Becky Shaw, Warren Bouchard and Shirley Powell.

It is asked that people who receive a survey fill it out and mail no later than May 2, in order that the staff may complete the tally and record the responses. The patient care committee will review the responses and decide on the appropriate method to continue to bring high quality health care to the community.

need for graduation is a problem. However, having access to the proper courses to obtain the necessary course requirements is very difficult. If changes could be made in the curriculum to allow us earlier access to particular courses, more students would have the opportunity to take advantage of the NOVA programs.

If NOVA could develop its vocational awareness activities more at the Freshman level, students would have a better opportunity to develop the proper schedule which would allow them to take NOVA.

If you want to hear first hand how we feel, attend the public hearing at Telstar High School at 7:00 p. m. on Thursday, April 28.

NEWS FROM POOH CORNER

The Nursery School children have been listening to spring poems, making spring flowers and woolly lambs. The letter this week was letter W and they talked about wind and windy weather. On Wednesday they visited the Laban farm and patted the lambs. One lamb ate from a bottle and every one took turns feeding him. They also learned about fleece and tried to work the spinning wheel.

B.E.A.R.S.

(Bethel Emergency Ambulance & Rescue Service)

The B.E.A.R.S. would like to welcome Warren Bouchard and Sue Mellett to the service. They are both trainees. It is hoped they enjoy the challenge of helping people and remain with the B.E.A.R.S. for a long time to come.

The Standard and Advanced First Aid Classes will be ending soon. Good luck to all in their finals.

There will be a pot luck supper for all B.E.A.R.S. members, families, and guests. It will be at 4 p. m. at Mary Myers' house. Remember it's May 1. Bring a dish to share and let's all enjoy a good time.

On Friday, Florence Merrill, Director of the B.E.A.R.S., and Jan Whitworth, P.A., from the Bethel Health Center teamed up to attend a workshop in Lewiston on Emergency Medical Services - Rural Health Center Project.
